

## Description

The **CTS PCM-CHASSIS-08** is an **unmanaged media converter chassis with eight module slots** designed for the installation of CTS's **PCM-3002SFP-BT**, a **1G media converter compliant with 90W IEEE 802.3bt PoE standard**.

### PCM-CHASSIS-08: Reliably Built for a Wide Temperature Range

The PCM-CHASSIS-08, when combined with the PCM-3002SFP-BT modules, features a swappable redundant power system to ensure uninterrupted operation, even if one power module fails.

Its fanless, plug-and-play design allows easy maintenance, with both power module units and media converter slots accessible from the front panel. The chassis supports wide operating temperature ranges across  $-10^{\circ}\text{C} \sim 60^{\circ}\text{C}$ , making it ideal for deployment in harsh environments.

### PCM-3002SFP-BT: Media Converter with a 90W PoE Injector

The **PCM-3002SFP-BT** media converter is specifically designed for the PCM-CHASSIS-08 platform. It provides:

- one 100/1000 Mbps SFP slot
- one 10/100/1000 Mbps RJ-45 port with a maximum IEEE 802.3bt Type 4 (90W) PoE output capability

The media converter features a plug-and-play design with a DIP switch located on the rear panel, allowing users to configure multiple functions. This makes it an excellent choice for efficient and reliable network operations.

## Key Features of PCM-CHASSIS-08

### ■ Easy Maintenance with Hot-Swappable, Plug-and-Play Design

The **PCM-CHASSIS-08** accommodates up to eight media converter slots and two power slots, all accessible from the front panel. Its plug-and-play, hot-swappable design ensures easy maintenance and minimizes downtime during module replacement.

### ■ Optimized for Compact Rack-Mount Environments

Designed with depth-conscious installations in mind, the **PCM-CHASSIS-08** supports **standard 19-inch rack mounting with a 200mm depth**, making it ideal for deployment in narrow spaces.

### ■ Fanless Thermal Design

The **PCM-CHASSIS-08** employs a **fanless** natural airflow design, ensuring silent operation and reducing the risk of fan failure, providing long-term reliability.

### ■ -10°C ~ 60°C Operating Temperature Range

Designed for demanding environments, the **PCM-CHASSIS-08** operates reliably in temperatures ranging from **-10°C to 60°C**, ensuring optimal performance even in extreme conditions.

### ■ Target Applications

Ideal for challenging network infrastructures, where temperature might fluctuate from -10°C to 60°C.

## Key Features of PCM-3002SFP-BT

### ■ Instantly grasp when link issue occur

The Link Alarm function promptly notifies network managers when unmanaged devices encounter link issues, enabling immediate response.

### ■ Maximum 90W PoE output on per RJ-45 Port

The **PCM-3002SFP-BT** equipped 10/100/1000 Base-T RJ-45 port, which delivers IEEE 802.3bt **90W PoE output**, ideal for powering high-demand devices such as PTZ IP cameras, Wi-Fi 6/6E/7 access points, and self-service terminals.

### ■ Rear-side DIP Switch

Featuring a rear-side DIP switch that allows users to configure functions, while its rear placement prevents accidental operation.

### ■ Reduce operational cost effectively

The PSE Auto Power Off function can automatically disable PoE during a fiber link disruption and reboot remote devices if needed, especially those located at long distances (e.g., 120 km), eliminating manual intervention and reducing operational costs.

### ■ Assurance for Cyber Security: Data Diode

The integrated data diode guarantees unidirectional data flow, preventing data leakage or unauthorized access by blocking reverse communication channels. Users can also customize the direction of data transfer to meet specific needs, ensuring protection of sensitive information and critical systems.

# Specification

## ■ Interface

### PCM-CHASSIS-08

- Media converter Slots  
8 x Hot-Swappable
- Power Slots  
2 x Hot-Swappable

### PCM-3002SFP-BT

- 1 x 100/1000Base-X SFP
- 1 x 10/100/1000Base-T RJ-45 with  
IEEE 802.3af/at/bt injector, up to 90W PoE output

### Standards

- IEEE 802.3 10Base-T
- IEEE 802.3u 100Base-TX/FX
- IEEE 802.3ab 1000Base-T
- IEEE 802.3z 1000Base-X
- IEEE 802.3af Power over Ethernet
- IEEE 802.3at Power over Ethernet +
- IEEE 802.3bt Power over Ethernet ++

## ■ H/W Specification

### PCM-3002SFP-BT

- MAC Address Table: 2K
- Non-blocking Switching Fabric: 4Gbps
- Throughput @ 64Bytes: 2.9Mpps
- Jumbo Frame: 9K Bytes
- Packet Buffer: 1Mbit
- Store and Forward Switching Mechanism
- Auto-Cross over for MDI/MDI-X in TP port
- Auto-Negotiation in TP Port
- Full/Half Duplex Mode Operation

## ■ Power over Ethernet

### Max. PoE output budget for PCM-CHASSIS-08

- 100V AC @ 60°C : 200W
- 110V AC @ 60°C : 230W
- 220~240V AC @ 60°C : 240W

### Power Pin Assignment for PCM-3002SFP-BT

- IEEE 802.3af/at (mode A/end-span)  
1/2(-), 3/6(+)  
max. PoE output budget: 15/30W
- IEEE 802.3bt (4-pair mode, 4-pair mandatory)  
1/2(-), 3/6(+) & 4/5(+), 7/8(-)  
max. PoE output budget: 90W

## ■ LED

### PCM-CHASSIS-08

- Power (power module)

### PCM-3002SFP-BT

- Power, Status, PoE
- TP Link/Act/Speed, F/O Link/Act/Speed

## ■ DIP Switch

### PCM-3002SFP-BT

- Manual/Auto for TP Auto-Negotiation
- TP speed 100/1000Mbps
- Force/Auto Mode for F/O
- F/O speed 100/1000Mbps
- Link Alarm Enable/Disable
- Data-diode Enable/Disable
- Data-diode Direction  
block Fiber to RJ-45 direction  
block RJ-45 to Fiber direction
- PSE Auto Power Off (PAPO)\* Enable/Disable

## ■ Power Requirement

### PCM-CHASSIS-08 (with power module)

- AC Input : 100~240VAC, 50/60Hz
- Power Consumption: full-load ≤ 298W (1017 BTU/h)

### PCM-3002SFP-BT

- Power Input : 54VDC
- Power Consumption: full-load ≤ 95W (324 BTU/h)

## ■ Environmental Condition

- Operation: -10°C~60°C
- Storage: -20°C~70°C
- Humidity: 5%~90% RH, Non-Condensing

## ■ Dimension & Weight

### PCM-CHASSIS-08

- Size: 440 x 200 x 132mm (W x D x H)
- Weight: 4.25Kg (without power and converter module)

### PCM-CHASSIS-08-AC POWER

- Size: 75 x 181 x 132mm (W x D x H)
- Weight: 2.0Kg

### PCM-3002SFP-BT

- Size: 34 x 94 x 132mm (W x D x H)
- Weight: 0.27Kg

## ■ Standards and Certifications

### CE/FCC Class A

- Safety: EN/IEC 62368-1
- EMC: EN 55032 / EN 55035
- ESD  
Air Discharge: +/-8kV  
Contact Discharge: +/-4kV
- EFT  
AC input: +/-1kV  
Signal (RJ-45): +/-0.5kV
- Surge Protection  
AC input: +/-2kV  
Signal (RJ-45): +/-2kV

### VCCI/UKCA/RCM

### RoHS 2.0

\* The PAPO function operates when the fiber interface link goes down, with link alarm function enabled.
